Ping / Post Instructions

Our partners will have to call these URL:

PING URL

http://adopt-a-contractor.com/PingPostPartner/Ping_Partner.php

and integrate these following parameters:

- zipcode
- numcategory (sub category)
- test_mode=1 (if you are testing) or do not send anything (if you are live mode).
- **partnerid=ABC if you have only 1 source. And partnerid= ABC_XXXXXX if you have multiple sources. (XXX is a code only you know to identify your sources, in case of quality issues)**

Example of PING answer:

ACCEPTED
Token:24254238283;57\aa44248OaOMDEa3;4Ra48022
Price:26.00

POST URL

http://adopt-a-contractor.com/PingPostPartner/Post_Partner.php

Same instructions than direct post + Token

Example of POST:

`http://www.adopt-a-contractor.com/PingPostPartner/Post_Partner.php?token=24254238283;57\aa44248OaOMDEa3;4Ra48022&zipcode=22026&name=test&numgroup=13&numcategory=192&comments=Comments+MB&address=address+MB&telephone=17812345676&email=testmb@testmb.com&partnerid=ABC`

If all parameters sent are matching with an expected valued, then our system will answer with a “lead ID”. Otherwise, our system will answer by an error.

Here are our filters:

- zipcode: 5 digits
- name: 50 characters max
- numgroup: digits only.
- numcategory: digits only
- comments: 300 characters max
- address: 100 characters max
- telephone: 10 digits (no space)
- email: email with valid format
- **partnerid=ABC if you have only 1 source. And partnerid=ABC_XXXXXX if you have multiple sources.**
- Additional questions: digits or letters.

Please contact your account manager for any questions or technical issues.
